While the program was being rendered a fish pond was filled with "fish." After the program, large and small rushed to the pond to catch "fish." Everyone seemed to be lucky for only too soon was the pond drained of its "fish."
In the meantime cake, sandwiches, coffee and lemonade were being served by the ladies.
The beautiful box of candy given by the Sewing Girls was won by Miss Minnie Wernette. The lovely cake donated by Mrs. Alice Reinhart was won by Mrs. Shane Roberts. The Dutch cake, donated by Miss Rosa Lutz, was won by Miss Selma Stiegler.

TEACHERS JOIN STATE ASSOCIATION.

Worth, Nov. 5.—Superintendent W. N. Saathoff, of Medina County schools, and P. P. Brewster, president of the Hondo schools, enlisted practically all of the teachers in that section as members of the Texas State Teachers Association. Many of these will attend the Convention of the Association in San Antonio November 27, 28 and 29.

The program of the convention is the most far-reaching in the history of the Association, the aim

W. N. SAATHOFF.

Superintendent Public Instruction Medina County, Texas.

to set forth clearly the needs of the Texas School system. The School Survey, which has just been completed, has revealed a number of weak places in the system, which will be discussed in the convention. Dr. George A. B. Jones, Director of the Survey, and other national educational leaders will appear on the program.

San Antonio is planning to entertain more than five thousand visitors, and it is possible that the convention will be a record-breaking one.

SKY BROS. SHOWS DRAW LARGE CROWDS.

(Luling Signal) Dubinsky Shows, which arrived Luling Sunday and erected a tent on the C. F. Bell lot at Second Street and Fifth Avenue, have been playing to capacity all the week and nothing but favorable comments have been made on the performances. Monday night the big tent was filled to overflowing for the bill and so favorable was the impression made by these entertainers that the play-bill of the city have turned out en masse for each succeeding performance. In addition to presenting acts far above the average organization of this kind, they have a wonderful orchestra and specialties between acts which have been applauded so heartily that there is no question as to whether or not they are good. Monday night in their tent theatre, on the square in front of the Court House.

HERE FROM BRECKENRIDGE.

W. E. (Bill) Grimsinger and J. A. Robbins were here this week from Breckenridge visiting Mr. Grimsinger's parents, Mr. and Mrs. Eugene Grimsinger, and incidentally enjoying a hunt. They found game somewhat scarce and hard to get. Mr. Robbins shot a deer and knocked it down but it got away from them and they had to quit empty handed. Nevertheless, they had an enjoyable trip and visited all of Mr. Grimsinger's relatives and old friends while here.

Mr. Robbins is Police Commissioner of Breckenridge and Mr. Grimsinger is the Chief of Police at that place.

Mr. Grimsinger's friends are pleased to learn that he is making good in his responsible position and wish him continued success. This was his first visit to homefolks in about seven years, and of course the old people were pleased.

THE ELECTION OVER.

The general election is over, and the editor of this paper can say truthfully that it went "just as we expected."

The general election was a landslide for Coolidge. More than ever before in the history of national elections can this be proclaimed a victory for the man. The Republican party is entitled to but little credit for it.

In the state election, the count of the vote indicates that Mrs. Ferguson will win by just about the same majority that she won in the August primary. This too is as we expected. The same people who voted for her in August voted for her in November, the Robertson supporters went over to Butte almost to a man and the Republican vote split on the klux issue just as the Democratic vote split. The result is a clear cut victory for the forces of law and order in contradistinction to the subjects of the "invisible empire."

Tabulated above are the votes for President, Governor, the Amendment and the local contested offices. In the August primary the vote in Medina County for governor was for Ferguson 1389 and Robertson 729 or a majority of 660 for Ferguson. In this election, Ferguson polled 1565 votes and Butte 915, or a majority of 650 for Ferguson. This was an increase in the combined gubernatorial vote of 362. In other words, a change of five votes in Ferguson's favor would have split the vote that had not gone into the Democratic primary exactly even.

This election was the most mixed affair we ever knew. The nation went Republican, the state Democratic and the county Independent. Every one should be able to extract some comfort from such a result. But to us we are peculiarly satisfied. From the first primary to the last election we failed to pick the winner

in only four or five instances. The failure of the national Democratic ticket is salved by a great admiration for President Coolidge, one of the bravest men in public life. If the Republican party will let him have his way the country will be safe in his hands. If they let Dawes turn it over to Morgan and his associates La Follette may yet have to save us!

Having stood for some measure of restitution to Jim Ferguson for the dastardly wrong done him, and having consistently opposed the participation of an oath-bound secret order in politics, the election of Mrs. Ferguson affords us a double pleasure. She will assume the reins of government over and almost bankrupt state in what should be an era of prosperity. She will have a difficult task ahead of her, but she and her chief advisors have every incentive for striving to make good and we believe and hope our confidence and trust have been well placed.

Locally we have not tabulated the non-contested offices. Those here-with tabulated, speak for themselves. All old county and precinct officers were re-elected. D. C. Brown, county attorney, was re-elected by the writing of his name on the ballot. In Justice Precinct No. 1, Geo. Neuman received a large vote for Constable in the same manner.

Some peculiar results appear from the returns. For instance, Coolidge carried New York while Al. Smith beat one of the state's most popular Republicans for governor of the state. We were an original Al Smith for President man; we are more firmly convinced than ever that he should have been nominated; and we are for him in 1928. When the convention failed to nominate him we said that it meant that New York, Pennsylvania and Medina County would go for Coolidge. We missed it on the last one-third of this prediction. But when it was

made we did not know Coolidge was to have the Butte handicap. We have known for some time that Butte was injuring the national Republican ticket in Texas. Look at Coolidge's Medina County vote and you will see we were correct.

So with every body satisfied ex-

cept Tom Love and his bunch, and they preparing to take themselves permanently out of the Democratic party, let's get down to business.

Now is the **TIME** to subscribe!

ARMISTICE DAY CELEBRATION. PARENT-TEACHER ASSOCIATION TO MEET.

Next Tuesday, November 11th, will be observed as a holiday by Hondo, in commemoration of the 6th anniversary of the closing of the great world war.

Quite an extensive program has been prepared for the occasion and Hondo is expecting a great crowd of the good people of the country to come and participate in the festivities.

The exercises will begin at 10 o'clock in the morning by a football game, and amusement after amusement will follow throughout the day in quick succession and will close only after the orchestra plays "Home Sweet Home," at the grand ball at the American Legion Hall at night, the closing event of the celebration.

Throw dull care to the winds for one day, come and mingle with your friends and enjoy yourself. A barbecue dinner will be served, and everything possible has been done to make the day a pleasant one. Come, you are expected and your failure to be present will be a disappointment to your friends.

DEVINE NEWSLETS.

From The Devine News.

Milch Cow Kills Owl.

Mr. W. C. Roberts of Lytle, vouchers for the following story as true, told by him in The News office this week. He had a number of chickens roosting on the lot fence, and these were attacked by an owl, a large white owl, Mr. Roberts said such as he had never seen before, and the Jersey Milch cow, with sharp horns, evidently became enraged at the owl disturbing the roost and ran her horn through the owl leaving it dead on the ground near the chicken it was trying to devour. Mr. Roberts is quite sure, from all appearance, that the cow did the work. We have heard many strange stories about the faithful watchdog, looking out for the chicken yard, but this is our first to hear of a Jersey milch cow doing the work.

DO YOU WANT TO GROW BROOM CORN?

G. R. Taylor of the C. D. Jarratt Co., of San Antonio will be in Hondo November 10 to explain to growers their broom corn growing contract for next year.

These people are preparing to go into the production of good broom corn on a large scale in Southwest Texas.

They have acreage contracted from Dilley to Encinal on the I-G. N. R. R. and in the "Winter Garden District" on the S. A. U. & G. and are contemplating a contract at Sabinal.

The Jarratt Co., has a big business built on good broom corn and were attracted to its possibilities by the success they had in disposing of the better grades at Devine this past season.

The only crop grown at Hondo this season was raised by Mr. W. C. Scott who had in seven acres from which the Jarratt people sold for him over \$500.00 worth of brush.

Mr. Taylor stated that if the growers were sufficiently interested to put out enough broom corn to warrant their coming to Hondo, that they would put experienced men here to instruct growers in the proper method of handling the crop and would bring threshing machinery in and could establish a broom corn market at Hondo.

The editor of this paper has not gone into the terms of this proposition sufficiently to advise his readers to go into it without thorough investigation. In view of the fact, however, that our soil and climate are admirably adapted to the growth of broom corn and the further fact that the sorghums appear to be immune to the attacks of the corn root worm, now a serious menace to the growing of Indian corn on many farms, we do advise our farmers to meet Mr. Taylor and go into his proposition with him. Any feasible plan of crop rotation is deserving of our most thoughtful consideration.

Took a Friend's Advice

Houston, Texas—"When I was comparatively a young woman I became afflicted with woman's trouble and got so I could hardly walk. I had a delicacy in submitting my case to the doctors. Finally a friend advised me to try Dr. Pierce's Favorite Prescription. I did so, and before I had taken three bottles I was all right. Later on in life I became afflicted with a kind of poison in my blood, for this I took the 'Golden Medical Discovery', and gradually my blood became pure. I never again had anything like either of these afflictions."—Mrs. D. M. Wilson, 1521 Fulton St. All dealers.

**TWENTY YEARS OF QUARRYING
AT BEAR MOUNTAIN.**

Little Impression Made on Seemingly
Unlimited Amount of World's
Best Granite.

The specifications in the building
life of man, yet it is twenty years
this month that the granite quarry
at Bear Mountain has supplied the
best red granite and the small in-
dentation made in the mass of moun-
tain is insignificant. Wm. and Emil
Nagel took up monumental work and
quarrying of granite started by
Frank Teich in 1888 at which time
the columns of the City Hall at San
Antonio were made.

The specifications in the building
contract called for Texas best red
granite and this was the beginning
of the granite industry in Gillespie
county. Teich worked the granite
from Bear Mountain for about four
years, on account of poor transpor-
tation facilities he was forced to
abandon the work here.

In 1901 Joe Wild started a monu-
mental work at Fredericksburg and
secured stone from Bear Mountain.
At this time the front at the Bank of
Fredericksburg was built. This yard
was discontinued in 1904.

In October 1904 after reading in
a local paper that Mr. Wild had closed
his monumental works, Wm. and
Emil Nagel came here and took up
the work of quarrying and finishing
granite for monuments and building.

Just after starting business a di-
ploma and bronze medal was awarded
the Bear Mountain granite by the
World's Fair at St. Louis and given to
Nagel Brothers. This diploma
and medal may be seen at their office
today.

The first finishing plant was lo-
cated on Robert Penniger's property,
west of the court house square. On
account of increase in volume of
work, a larger place had to be secured.
The new plant was erected on the
present location and in the course
of time more and more machinery
was added.

Bear Mountain was originally in-
cluded in three surveys, Ellebratch,
Wiedermann, and Jung. The Elle-
bratch survey was purchased by the
present owners, Nagel Bros., from
Joe Moritz in 1905, the Wiedermann
survey was acquired through Theo.
Etlh in 1908, the balance of Bear
Mountain was bought from Louis
Jung in 1913. This gave Nagel
Bros. complete ownership of Bear
Mountain and it was at this time that
three more brothers were added to
the partnership; Rudolf, Otto, and
Arthur.

Bear Mountain, consisting of 83
acres of fine red granite, stands out
among hills of limestone formation,
seemingly the work of some kind of
eruption perhaps thousands of years
ago. On the extreme top of the
mountain is a large boulder called
balanced rock which is a massive
stone with an estimated weight of 17
tons, resting on three small points.
This rock has attracted the attention
of tourists and many of them come
thousands of miles for a special trip
to the mountain to see this wonder
of nature.

The first quarry was opened on the
west side near the present road.
The quarry was later opened on the
east side where it was operated for
ten years. The location of the pre-
sent quarry is on the south side of
the mountain. Here is probably the
best opening of any quarry in Texas.
The granite is found in ledges, with
a depth of about 30 feet and a width
of 30 feet or more. This formation
together with the equipment of large
gas engine, compressor, derrick,
power hoist, and modern air drillers
makes quarrying comparatively easy.
A part of this equipment has been
installed recently.

Since a new derrick of massive size
has been erected a number of large
stones, weighing 3 to 5 tons, have
been taken from the quarry. Some
of these large stones have been ship-
ped to South Carolina and other
eastern points. The local wholesale
plant has also been furnished with
practically all of the stone used by
them.

The government analysis shows
that the Bear Mountain red granite
is one of the hardest and toughest
granites in the United States. This
quality makes it the best granite for
polishing and the contrast of the
lettering is known to be the best.

In practically every cemetery in
this section of the state you will find
graves marked with this beautiful
red granite. Many buildings, such
as school houses, churches, and busi-
ness houses, have been marked with
cornerstones of this red granite. In
many cases Nagel Bros. practically
donated cornerstones, most of which
were finished in the plant here which
is growing in size from year to year.

At present there are employed at
the plant in Fredericksburg and at
the quarry at Bear Mountain fifteen
men. During the twenty years that
the industry has flourished, many a
dollar has been brought into Gillespie
county, again to be spent here.

As you approach Bear Mountain
you can see to the right of the road
the power house and the tool house
of Nagel Bros. The large gasoline
engine is used to pump water, sharp-
en tools, and mostly to keep the air
tank filled with compressed air. From

this tank the air is piped for some
250 yards to the quarry where the
drilling is done with tools operated
with compressed air.

Whenever a stone is to be broken
off the larger mass, a line of holes
is drilled, sometimes as many as 200
about 4 inches apart and 5 to 6 inches
deep. Into these holes iron wedges
are driven in between iron springs.
The pressure on these wedges is
gradually increased until the rock
cracks. Whenever a piece of rock
is to be broken out for the full depth,
holes are drilled to a depth of about
seven feet. These holes are drilled
so that the lines taper, being farther
apart as you get deeper. The rock
is then cracked open by placing
small loads of blasting powder. It
often takes six or eight loads to final-
ly complete the crack.

The other day when the writer vis-
ited the quarry a rock of dimensions
approximately 5 by 18 by 8 feet had
been loosened from the main rock.
A small load of blasting powder was
used to shove this rock away from
the main body. Now this rock is
ready to be broken into smaller parts
and then to be shipped to the works
at Fredericksburg. This little rock
which was mentioned above weighs,
according to Mr. Nagel, something
like 15 tons.

The granite industry is one of the
chief industries of Gillespie county.
To the persistent effort of Nagel
Bros. is due the fact that this untold
natural resource of our county is be-
ing transformed into wealth. May
the industry succeed in years to come
as it has in years gone by.—Freder-
icksburg Post.

Wm. Neumann is Hondo's local
representative of Nagel Brothers.

G. & C. Hagelstein, the developers
of Lake Medina Highlands have built

the owners will make the price.
Every lot or cabin site put up will
go to the highest bidder regardless
of value. We sell even if only one

now that the hunting season is with
us many will go the Lake and if
they have a good shooting eye should

LADIES FORTY-TWO PARTY.

Mesdames Felix Ritcher, Oscar Schuehle and C. J. Schuehle entertained the "42" Club Thursday afternoon, using Armistice Day as the basis of their design. The tallies with patriotic emblems suggested the motif, and after a pleasant series of games the flag favors and emblematic napkins completed the color scheme. A delightful chicken cauld course, with deviled eggs, pickles, saltines, potato chips and iced tea was served to twenty-two guests.

Mrs. Charles Monkhouse, Mrs. W. O. Rothe and Mrs. Oscar Miller tied for high score of eleven games, and Mrs. Garland Martin and Mrs. Mimke Muennink received low score of five games.

Mrs. Kollman and Miss Thelma McIlroy of Amarillo were club guests.

Those present were Mesdames P. Jungman, Chas Monkhouse, Mimke Muennink, L. J. Brucks, F. S. Cockrell, F. H. Schweers, Leo Schweers, H. J. Meyer, Earl Starnes, Horace Bradley, L. E. Heath, Hy. Merriman, O. H. Miller, R. J. Noonan, W. O. Rothe, Mrs. Kollman, Earl Boon, Garland Martin, Miss Thelma McIlroy and the hostesses.

The hostesses for the next meeting will be Mrs. F. H. Schweers, Mrs. Leo Schweers and Mrs. W. H. Smith.

YANCEY SCHOOL ISSUES PAPER.

In the rush last week incident to getting out the regular eight-page edition of the Anvil Herald, a sixteen page edition of November FARMING and an eight-page magazine for the Yancey School, we neglected to mention that the Yancey High School issued on October 31st an eight-page school magazine.

The title of the new venture is "The Sand Storm," and while its promoters have plenty of "sand" its editorial contents were any thing else but mere "wind." In fact, from an editorial and reportorial standpoint the little paper would be a credit to older and more experienced heads.

The mechanical work was done in the Anvil Herald office, and the money paid us for the work has already been spent among the people whose advertising patronage enabled the promoters to finance the enterprise. Its workmanship pleased our customers, and we leave it to them to speak of its merits.

We congratulate the Yancey High School on the initial issue of the paper and hope it may prove a useful helper in building up the already splendid school spirit of that community.

LUTHERAN LADIES ENTERTAINED.

On Thursday evening, November 6, Mrs. L. A. Mechler entertained the Lutheran Ladies' Aid. After several hours of sewing and talking a business meeting was held at the close of the meeting.

Miller, Geo. Leinweber, Henry Britsch, J. G. Karm, H. E. Haass, Jacob Rothe, C. J. Stiegler, August Schroeder, Felix Batot, Alice Reinhardt, Ben Oefinger, Geo. Karm Miss Lucille de Montel and Rev.
